

# Making High-Quality Decisions

## Course Description

This course is designed around a handful of common decision-making challenges leaders face, such as personnel and strategy. It provides tangible frameworks beyond the usual sort and sift, pros and cons, or just follow your gut. How to choose between a variety of uncertain or ambiguous outcomes is the question this course will help you navigate.

## Course Outline

- Introduction to decision-making challenges
- Balance the scales
- DECIDE decision-making model
- Optimal Stopping
- Delayed Intuition Matrix
- Take a BEAT decision-making model
- Leave with action items and a plan for better, quick, in-the-moment decision-making habits"

## Outcomes

- Understand the risks of biased, instinctual decision-making
- Introduce how to rebalance the scales for both clear-eyed deliberation and human intuition
- Learn the four decision-making models
- Begin the habit-changing process for making better, quick, in-the-moment decisions
