

Strategic Thinking

Course Description

Strategic thinking is all about seeing the bigger picture. In this workshop, participants will discover how to adopt the mindset of a strategic thinker by gaining a wider perspective to take on challenges and obstacles. While not a workshop designed to help you develop a specific business strategy, the tools and frameworks explored in this course will allow you to build skills to analyze and challenge the status quo, foster a more competitive mindset, and thrive through challenges.

Course Outline

- What is strategic thinking?
- Four applications of strategic thinking
- Mental models to support your strategic thinking
- The strategic thinking toolkit

Outcomes

- Define and explore what strategic thinking is
- Attributes of strategic thinking
- Toolkit for Strategic Thinking
